THAMES WATER UTILITIES
WATER QUALITY REPORT - 2014 DATA

Water Supply Zone:	SLE36	BELLINGHAM & MOTTINGHAM	Zone No.: 318
			Population: 52892
Time Period: 01/01/2014 to 31/12/2014			
Date extracted: 10/04/2015			

Commentary on Water Quality:

Very good water quality, however one infringement to report for bromate, one infringement to report for lead and one infringement to report for coliforms. Our investigations showed the infringement for bromate was transitory at a supplying asset and the infringements for lead and coliforms were transitory. None of these infringements were indicative of the quality of water supplied to this zone.

NOTES:

For some parameters, monitoring occurs at the supplying Water Treatment Works rather than the Water Supply Zone
